

# Selecting a Robnor Adhesive

Performance  
Through Innovation

## APPLICATION

### METAL BONDING

Heat and Chemical resistant - PX628HP  
Toughened - PX774D  
Metal filled - PX628MF

### RUBBER AND PLASTIC BONDING

Toughened - PX774D  
Long working life - PX628H  
Fast curing - PX800CS

### STONE AND WOOD BONDING

High gap fill - PX192H  
Long working life - PX681C  
Fast curing - PX800CS

### GLASS REINFORCED PLASTICS

Fast curing - PX800CS  
Long working life - PX628H  
Heat and Chemical resistant - PX628HP

### RUBBER TO METAL BONDING

Toughened - PX774D  
Fast curing and flexible - PX628FF  
Long working life - PX628H

## PROPERTIES

### FAST CURING

Fast curing - PX800CS  
Fast curing - EL420AR  
Fast curing and flexible - PX628FF

### CLEAR BOND LINE

Fast curing - EL420AR  
Long working life - PX681C  
Fast curing - PX800CS

### CHEMICAL AND HEAT RESISTANT

Heat and Chemical resistant - PX628HP  
Long working life - PX628H  
Fast curing - PX800CS

### HIGH GAP FILL

High gap fill - PX192H  
Metal filled - PX628MF  
Toughened - PX774D

### LONG WORKING LIFE

Long working life - PX628H  
Long working life - PX681C  
Heat and Chemical resistant - PX628HP

### FLEXIBILITY & IMPACT RESISTANT

Toughened - PX774D  
Fast curing - EL420AR  
Fast curing and flexible - PX628FF

### MECHANICAL STRENGTH

Heat and Chemical resistant - PX628HP  
High gap fill - PX192H  
Long working life - PX628H
